While the Company intends to apply the net proceeds of the Offering as set out above, management will have broad discretion in the application of the available funds, and may reallocate such proceeds in order to address changing circumstances or opportunities that arise.

**PART 3: USE OF AVAILABLE FUNDS****What will our available funds be upon the closing of the Offering?**

		<b>Assuming 100% of Offering (\$)</b>
A	Amount to be raised by this Offering	1,500,000

<b>G</b>	<b>Total available funds: G = D+E+F</b>	<b>2,132,892</b>
<b>Notes:</b>		
2. The working capital as at February 28, 2026, is an estimate of management; actual results may differ.		

**How will we use the available funds?**

We will use the available funds as follows:

<b>Description of intended use of available funds listed in order of priority</b>	<b>Assuming 100% of Offering (\$)<sup>(1)(2)(3)</sup></b>
Exploration Activities in Canada	500,000
General corporate and administrative expenses	250,000
Investor relations <sup>(4)</sup>	500,000
Unallocated working capital <sup>(5)</sup>	882,892
<b>TOTAL</b>	<b>2,132,892</b>
<b>Notes:</b>	
1. The above noted allocation of capital and anticipated timing represents the Company's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number	

of factors, including the Company's ability to execute on its business plan. See the "Cautionary Statement Regarding Forward-Looking Information" section above.

2. The most recent unaudited interim financial statements of the Company included a going concern note. Management is aware, in making its going concern assessment, of recurring losses, on-going negative cash flow and an ongoing dependence on financing activities that may cast significant doubt on the Company's ability to continue as a going concern. The Company is in the process of exploring its mineral properties and has not yet determined whether the properties contain reserves that are economically recoverable. The business of mining and exploration involves a high degree of risk and there can be no assurance that the Company's exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the discovery of economically recoverable reserves and resources, securing and maintaining title and beneficial interest in its properties, making the required payments pursuant to mineral property option agreements and/or securing additional financing, all of which are uncertain. The Offering is intended to permit the Company to continue its operations, with the goal of advancing its exploration activities and is not expected to affect the decision to include a going concern note in the next financial statements of the Company.
3. The available funds will not be paid to an insider, associate, or affiliate of the Company, except for normal course salaries or consulting fees currently paid by the Company to its officers and/or directors.
4. The Company has not entered into any investor relations agreements and has not retained any investor relations service providers at this time. Management is regularly considering various investor relations strategies; however, no specific investor relations activities or expenditures have been determined. Any future engagement of investor relations consultants or service providers, including the nature of the services and applicable compensation, will be determined by management in the ordinary course and will be disclosed in accordance with applicable securities laws and the policies of the TSXV.
5. Unallocated working capital includes but is not limited to: professional fees (legal, audit and accounting), regulatory and filing fees, corporate governance and compliance costs, insurance, management and administrative fees, and general office and operating expenses. These expenditures are necessary to support the Company's ongoing operations and to maintain its status as a reporting issuer listed on the TSXV. While the exact timing and allocation of such expenditures may vary, the Company intends to apply these funds toward the foregoing identified purposes in the ordinary course of business. As of the date of this offering document, the Company has approximately \$757,892 in working capital on hand, which is separate from and in addition to the proceeds of the Offering.

#### **How have we used the other funds we have raised in the past 12 months?**

On March 24, 2025, the Company closed a non-brokered private placement and raised \$1,000,000 through the issuance of 5,263,158 units at \$0.19 per unit. Each unit consists of one common share and one common share purchase warrant, exercisable at \$0.25 per share for three years from the closing date. The net proceeds from non-brokered private placement were used by the Company for general corporate and working capital purposes.

**a) the name of the dealer, finder, or other person**

The Company may pay finder's fees to investment dealers and eligible finders (each, a "Finder") in respect of subscribers introduced by the Finder. Further information will be provided in subsequent news releases, once available.

The Company may pay a Cash Fee (as defined below) and may issue Finder's Warrants (as defined below) to Finders.

**c) if a commission is being paid, the percentage that the commission will represent of the gross proceeds of the offering (assuming both the minimum and maximum offering)**

The Company may pay a cash fee up to 7% of the gross proceeds raised in the Offering (the "Cash Fee") to Finders.

**d) details of any broker's warrants or agent's option (including number of securities under the warrants or option, exercise price and expiry date)**

The Company may issue the Finders such number of finder's warrants (each a "**Finder's Warrant**") as is equal to up to 7% of the number of Units sold pursuant to the Offering. Each Finder's Warrant will entitle the holder thereof to acquire one (1) additional common share of the Company at a price of \$0.75 per common share for a period of two (2) years from the Closing Date.

- e) **if any portion of the compensation will be paid in securities, details of the securities (including number, type and, if options or warrants, the exercise price and expiry date)**

See Item 4(d) above.

**Do the Agent(s) have a conflict of interest?**

To the knowledge of the Company, the Company is not a "related issuer" or "connected issuer" of or to any Agent(s), as such terms are defined in National Instrument 33-105 *Underwriting Conflicts*.

**PART 5: PURCHASERS' RIGHTS**

**Rights of Action in the Event of a Misrepresentation**

**These rights are available to you whether or not you relied on the misrepresentation. However, there are various circumstances that limit your rights. In particular, your rights might be limited if you knew of the misrepresentation when you purchased the securities.**
